

AGILOX and ProfilGate® are compatible

Autonomous Mobile Robots (AMRs) from company AGILOX and ProfilGate® clean driving zones from HEUTE are compatible.

This has been tested and confirmed by the manufacturer AGILOX:

“ ProfilGate® clean driving zones are used in industrial halls for cleaning tires, wheels and rollers. As a rule, these systems are embedded in the floor.

Our AGILOX products can easily drive over the clean zones.

The models of the xs series can be used. ”
